Trish,

Thanks for confirming and that sounds good. Did you have a particular time in mind? I get in at about 9am and was planning on posting around that time, unless you preferred something different.

Thanks,
Sarah

I did see a PDF of the report this morning but I'm just waiting for Rob to confirm that what I saw is in fact the final.

That does sound good. I heard that Gwen was working on the optimization.

Just a reminder PDFs go live immediately in Drupal. We are planning to start posting documents in the morning (and no sooner) so nothing is released too early. Is that also your plan?

Trish

Trish,

I have been making edits to the GHG report page and here is my draft version:

<https://wcms.epa.gov/node/162243/revisions/442363/view>

Holly is still waiting on the final PDF report, which will unfortunately not be in NSCEP before release tomorrow. So once I get that PDF (which has already gone through optimization, I believe), I was planning on creating the document page. At that point, I was planning on emailing you, Lisa and everyone like I normally do with a publishing request.

Does that sound good or would you prefer a different approach? Feel free to call me if that's easier!

Thanks,
Sarah

Who is making changes to the GHG page? Sarah/Jennifer?

At some point this needs to be turned over to us for posting live. Are all the changes made on staging for tomorrow's posting? If it's easier to talk this over, please call me.

Subject: timing for Trends Report and GHG Performance Report web release

Hi Erin, Trish, and Chris,

Just checking to make sure this looks right- so that everyone is aware and on the same page for loading the Trends and GHG Performance Report docs and making the webpages live tomorrow. Please correct/adjust if this isn't right or if timing changes:

Wednesday, Nov 2

1. Trish and Lisa Sun will start loading the documents (pdfs and excel) and images into Drupal after 7:30 am
There won't be webpages that link to the docs and images at this time, but the documents and images are technically "live" at this point
2. Erin or Chris will let Trish and Lisa know when to make the webpages live.
Is this current target 11 am?

For everyone's reference, here are links to the staging pages and what the urls will be after they are made live
First, login to Drupal to see the staging pages: <https://wcms.epa.gov/user>

FE Trends Report Main Page

Staging: <https://wcms.epa.gov/fuel-economy/trends-report>

Live URL will be: <https://www.epa.gov/fuel-economy/trends-report>

FE Trends Report Full Report

Staging: <https://wcms.epa.gov/fuel-economy/download-co2-and-fuel-economy-trends-report-1975-2016>

Live URL will be: <https://www.epa.gov/fuel-economy/download-co2-and-fuel-economy-trends-report-1975-2016>

GHG Performance Report

Staging: <https://wcms.epa.gov/regulations-emissions-vehicles-and-engines/ghg-emission-standards-light-duty-vehicles-manufacturer>

Live URL will be: <https://www.epa.gov/regulations-emissions-vehicles-and-engines/ghg-emission-standards-light-duty-vehicles-manufacturer>
